

Specialist family law firm launched

MARCH Solicitors has opened its first office in Newbury.

Specialising in all aspects of family law, March Solicitors offers advice and guidance on:

- Divorce and separation
- Mediation and collaborative law
- Pre-nuptial agreements
- Financial planning
- Living together
- Civil partnerships
- Matters relating to children, including abduction

March Solicitors' principal lawyer, Marc Chaudhuri, said: "Having lived and worked in the local community for many years, I am delighted to be launching March Solicitors.

"We see ourselves as being very different from other law firms in that we have tailored our services to meet the demands of modern-day life. To these ends, we provide lunchtime appointments and extended opening hours (until 7pm) making us more accessible. We also provide a LateLine telephone service allowing clients to contact us during the evening, or over the weekend.

"Additionally, we also offer a half-price initial consultation fee which is fully reimbursed to clients if they instruct us. As part of the community, we also donate one per cent of our received fees to The Newbury & District Cancer Care Trust. We feel it important to put a little back."

Marc Chaudhuri will present Kick FMs 'Legal Eagle' fortnightly feature as from this week. He also writes regular advisory articles and features for *The Newbury Business News*. See page 14.
